Canoeing is an adventurous activity and should follow the adventurous activity policy and procedures.

Guide Association website (26 March 2021, Version 1)

ADVENTUROUS ACTIVITIES PROCEDURES

Different levels of activity may have different qualification requirements. It's important to make sure you know the type of activity you're doing and check the instructor or external provider is qualified.

For example, the instructor qualifications needed for canoeing differ depending on water conditions.

You can run activities that require a qualified instructor yourself if you hold the relevant qualification. You must have evidence that your qualification is valid and covers the activity you're leading. Make sure to check the activity pages for information about including yourself in ratio numbers.
